Profit after tax for the third quarter of 2026 recorded in the separate financial statements amounted to VND 129.2 billion, an increase of VND 69.9 billion (+117.8%) compared with the same period of 2025. This significant growth was mainly attributable to the following factors:

- Financial income reached VND 45.5 billion, up 80.6% over the same period of 2025, primarily due to the recognition of an advance dividend payment from the associated companies.
- Gross profit reached VND 122.1 billion, an increase of 93.5% over the same period of 2025, mainly driven by higher profitability from the Company's two core business segments:
  + Gross profit from tunnel and road operation and maintenance services reached VND 59.2 billion, accounting for 48.5% of the Company's total gross profit by business segment, representing an increase of 64.9% over the same period of 2025.   + Gross profit from construction activities reached VND 50.3 billion, accounting for 41.2% of total gross profit by business segment, an increase of 177.2% over the same period of 2025, driven by higher revenue and cost savings.

  + Construction revenue reached VND 1,017.8 billion, up VND 180 billion (+21.5%) compared with the same period of 2025, mainly generated from the Dong Dang – Tra Linh, Quang Ngai – Hoai Nhon, Quy Nhon – Chi Thanh, and Ho Chi Minh City – Trung Luong – My Thuan Expressway projects.

Consolidated FS	First nine months of 2026	First nine months of 2025	Volatility	
			Value	Proportion
Revenue	2,991,606,667,878	2,595,600,324,636	396,006,343,242	15.3%

Consistent with the separate financial statements, the consolidated financial statements also recorded solid earnings growth. Accumulated profit after tax for the first nine months of 2026 reached VND 602 billion, an increase of VND 125.3 billion (+26.3%) compared with the same period of 2025. The growth was mainly attributable to the following factors:

- Revenue reached VND 2,991.6 billion, an increase of VND 396 billion (+15.3%) compared with the same period of 2025, including:

+ Revenue from BOT toll collection reached VND 1,835.3 billion, up VND 208.2 billion (+12.8%) compared with the same period of 2025, mainly driven by higher traffic volumes on key transportation routes such as the Bac Giang – Lang Son Expressway and the toll stations at Deo Ca Tunnel, An Dan, and Bac Hai Van.

+ Construction revenue reached VND 905.7 billion, up VND 68 billion (+8.1%) compared with the same period of 2025.

- Gross profit reached VND 1,425.8 billion, an increase of VND 262.9 billion (+22.6%) compared with the same period of 2025, mainly due to the higher contribution from the BOT toll collection, which generates stable profit margins.
- Share of profit from associated companies reached VND 79.9 billion, up 11.8% compared with the same period of 2025, also contributing to the growth in consolidated profit after tax.
- Financial income declined compared with the same period of 2025, but its small contribution to total revenue meant that the decline had no significant impact on the growth in consolidated profit after tax.

Overall, the consolidated business results for the third quarter of 2026 continued to demonstrate the effective synergy between the Company's construction capabilities and its expertise in the operation and management of transportation infrastructure across its entire network. The increase in profitability was supported by a more favorable revenue mix toward businesses with stable profit margins, together with improved financial cost optimization in line with the expansion of the Company's operations.
